Rubber Outsole Moto

This ultra-robust, 300°C heat resistant rubber outsole is obviously inspired by pure racing. Like the profile of a tyre this sole's diagonal grooves give you an optimum of fluid dispersal and a secure grip on all grounds.

BreathActive

The micro-channel system of this multi-layered lining provides you with a better breathability and moisture management when work means sweat.

iCELL

The hard-wearing honeycomb structure of the iCELL element improves the cushioning while enhancing the shoe´s stability, guidance and comfort.

PU midsole

The direct injected lightweight PU midsole provides you with shock absorption across the whole tread.

evercushion® plus

This high performance footbed uses a combination of low density cellular Polyurethane and PORON® to protect the heel and ball of the foot providing superior cushioning and shock absorption. The extra cushioning of PORON® brings long-lasting comfort and performance in a durable material that withstands even the toughest daily wear.

Driver Heel

This rounded heel part enhances your natural motion and improves your comfort.
