

PRODUCT DATA SHEET

Article No. 63.012.2 - Condor Mid S3 ESD SRC

Protection: steel cap and flexible FAP® midsole
Plus: ESD
Upper: oiled nubuck leather
Lining: BreathActive functional lining
Footbed: evercushion® pro ESD
Sole: Duo-PU sole REBOUND 4.0
slip- and abrasion resistant
Sizes / Width: 39 - 47 / 11

Bounce Midsole

This midsole is made of a special PU that contains a significantly higher number of small bubbles than in common PU midsoles that guarantee an optimum of underfoot cushioning while the reducing the weight significantly.

FAP® Flexible Anti Penetration

The flexible anti penetration midsole made out of ceramic-coated fibers, protects the feet completely from penetrating objects.

PU Outsole

Abrasion resistant, durable, yet flexible, this sole runs and runs and runs ...

The profile provides a high slip resistance, even on wet surfaces. The abrasion-resistant sole material is ideal for working on sensitive floors.

SteelCap

New developed SteelCap with more space for the toes for more comfort.

evercushion® pro ESD

The structure of this footbed gives you an optimum of cushioning from the first contact to the ground until the end of your move, giving relief to the compression zones. Its durable fabric cover and the perforated area at the forefoot ensure both breathability and comfort.

Upper

Oiled nubuck leather has the same velvety character like nubuck leather, but it's smoother and offers more protection against moisture penetrating. Furthermore it also prevents premature ageing by low maintenance.
