

FS317

Standard	EN ISO 20345:2011
Category	S3 SRC
Size Range	UK 3 - 14 EU 35 - 49
Colour	Black
Slip Resistance	SRC

Upper	Water Resistant Leather	Construction	Injection
Inner Lining	Breathable Mesh	Sole	Dual Density PU/PU Sole
Footbed	Removable EVA Footbed	Weight	850 grams (half pair size 8)
Impact Resistance	200 Joules Composite Fibre Glass Toe Cap	Penetration Resistance	Non-metallic anti-penetration midsole - Min. 1100N

CHARACTERISTICS:

- Flexible and lightweight metal free safety boot
- Water resistant leather upper
- Twin padded PU collar for comfort
- Injected PU midsole
- Dual density PU outsole
- Energy absorbent heel
- Antistatic
- Oil resistant outsole
- Metal free

Care Advice: To enhance the life & performance of the footwear, upper should be kept clean & dry. Dry/damp cloth or shoe polish/spray to be used as per the need. Sole to be checked and clean regularly to maintain its traction. Any obvious damage in footwear may reduce full protection and must be replaced.
