

DIAGNOSTIC 2.0

ST S3 WR HRO SRC

KEY SELLING FEATURES

- Fully contoured last with arch and heel support that mimics the natural anatomic surfaces of the foot.
- Comfort engineered to support your foot – made with cushioning that is tough and strong.
- Our outsole is designed to work around the natural anatomy and motions of the foot.
- SRX Rubber provides ‘best in class’ slip resistance while also being abrasion, oil and water, and heat resistant.
- SRX Helps to exceed industry standards and minimize the risk of slips and falls in the workplace.
- Anatomically contoured Super Elastic EVA compound Sockliner that provides great stability
- Soft breathable 100% Post industrial Recycled Mesh socklining.
- Steel Toe protects your feet from impacts and compression situations.
- Designs inspired by core CAT Archival/Heritage boots, re-created in a more modern and contemporary way.
- Fully Molded Rubber Toe Cap for additional abrasion resistance and durability at the front of the boot.
