RHEON™

AS362C SEIA

EN ISO 20345:2022
S7S SC LG FO M HRO SR

The AS362C safety dealer boot features the game-changing RHEON™ metatarsal protection. This new RHEON™ material protects the metatarsal bones in the foot by dynamically responding to and absorbing the energy from any impact. The advantage of RHEON™ over traditional metatarsal protection is that it is lightweight and ultra-thin, to maximise user comfort, and retain the aesthetics of the boot design. The RHEON™ material is certified to EN ISO 20345:2022+A1:2024 and exceeds the minimum clearance after impact on testing. The AS362C Seia safety dealer boot offers all day long support and protection.

SIZE: 6-13 (including 6.5 and 10.5)

SKU: 44910-84255

COLOUR: Black

OUTSOLE MATERIAL: Rubber

WEIGHT: 770g (Half size UK 8)
